

RE: Telephone Consumer Protection Act

Please do not overturn the Do Not Call law. It has been a pleasure not having to worry about unwanted calls. The people that call are usually rude, pushy and I always had to hang up on them only to be called again in a few days by the same company. My feeling is, if I want to do business with a company, I will take the time to find the information and contact them for myself. I feel I have rights to my home time, peace and quiet after a long day at work. Thank you
